**UMATILLA RESERVATION AIR QUALITY PERMIT : LARGE OPEN BURN
 INSTRUCTIONS, TERMS & CONDITIONS**

*A large open burn is a burn of non-prohibited materials that is greater than 6 feet in diameter or more than 30 feet of fence line vegetation or 20 feet of ditch bank vegetation. Agricultural, forestry-related and small residential burns require a different permit. Permit applicants are required to adhere to the following requirements. After sending in an Air Quality Permit Application and receiving approval, **THIS SIGNED SHEET IS YOUR PERMIT.** Keep it available and provide it upon request to Confederated Tribes of the Umatilla Indian Reservation (CTUIR) Office of Air Quality or US EPA inspectors. 40 CFR 49.132 General Open Burning Permits*

Applicant Name

Applicant Signature

General Terms and Conditions

1. Applicants can obtain permit forms from the CTUIR Office of Air Quality or online at www.umatilla.nsn.us/oaq or www.epa.gov/r10earth/FARR.htm.
 - a. Permit applications must be submitted to the CTUIR Office of Air Quality via fax or received in the mail at least five business days prior to the desired burn date.
 - b. Umatilla Indian Reservation Agricultural Burning Permits cost \$0.
 - c. *Please apply early to ensure all documents are in place prior to requesting to burn.*
2. Applicants must request and receive burn approval from the CTUIR Office of Air Quality (Contact number: 541-966-2477) or from the US EPA.
3. Applicants are responsible for compliance with any applicable burn safety requirements and must also obtain applicable fire safety permits.
4. Applicants are responsible for shutting down burns when necessary and/or requested to do so by the CTUIR Office of Air Quality or US EPA. Factors taken into consideration in deciding whether a burn should be shut down include:
 - a. Wind speed, direction, or sudden shifts
 - b. Extended or extremely high levels of particulate matter
 - c. Fire safety and control
 - d. Proximity to canyon rims, roadways, towns, houses, businesses, and other sensitive populations
 - e. Haze and limited visibility
 - f. Special community events
5. Applicants are responsible for conducting test burns, especially near sensitive areas (canyon rims, towns and houses), and must have flaggers stationed for burns affecting roadways.
6. Applicants must call the CTUIR Office of Air Quality with post burn information.
7. Applicants are also responsible for compliance with 40 CFR 49.131 General Rule for Open Burning which prohibits certain materials from being open burned.

Burn Call Procedures the Day Preceding the Burn Day

1. After applications are in and complete, applicants must call the CTUIR Office of Air Quality to request to burn **no later than 12:00 PM (noon)** prior to the day of the desired burn (Please note: calling by 12:00 PM (noon) does not guarantee a next day burn approval). Applicants may leave a voicemail.
2. The following burn information must be supplied:
 - a. Name and contact phone number
 - b. Type and size of burn(s) (e.g. how many piles, dimensions, footage or acreage)
 - c. Location of the burn (County, Township, Range, Section, & Quarter Section or address if at a residential or commercial business site)
 - d. Other pertinent information (e.g. canyon rim, near highway, near a town, etc.)
3. CTUIR Office of Air Quality reviews requests between **12:00 and 2:00 PM** to determine the preliminary recommendation for the burn area(s). Burn priority will be as follows:
 - a. Favorable conditions for sensitive areas (near towns, roads, canyons)
 - b. The preferred area to be burned (in terms of forecasted burn conditions)
 - c. The order of burn requests received from applicants
4. Pre-approved applicants will receive a preliminary decision by telephone by **6:00 PM**. A telephone message will be left if there is no answer.

Burn Call Procedures on the Burn Day

1. Pre-approved applicants must call CTUIR Office of Air Quality (541) 966-2477 by 9:00 AM to determine if it is a BURN or a NO BURN day.

Note: Applicants must be reachable by phone or other means of communication during the day of the burn should there be a change in the burn decision and if it necessary to cease all burning. If applicants are not reachable and continue burning, they are in violation of the permit.

2. Before the burn is started, the applicant must call the CTUIR Office of Air Quality (541) 966-2477 before ignition to find out if any changes have occurred in conditions for the day and to allow the office to track which fires are being burned, the time they are ignited and where the fires are located.
Note: If the CTUIR Office of Air Quality is unable to answer the phone, applicants may leave a message that they are lighting and the time of ignition.

Post-Burn Procedures

1. Within 24 hours after the burn, the applicant must contact the CTUIR Office of Air Quality with post burn information and leave the following:
 - a. Name
 - b. Date and time of the completed burn
 - c. How the burn went and if it is still smoldering
 - d. Amount of material actually burned
2. Applicants may leave a telephone message, mail or fax the post burn information.
Note: *If an applicant does not submit the post burn information, then the applicant will be out of compliance with permit conditions, may drop in priority for subsequent burns and may be subject to possible enforcement.*

The public reporting and recordkeeping burden for this collection of information is estimated to average one hour per response. Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the Director, Collection Strategies Division, U.S. Environmental Protection Agency (2822T), 1200 Pennsylvania Ave., NW, Washington, D.C. 20460. Include the OMB control number in any correspondence. Do not send the completed form to this address.
